Choose France is a registered trademark of the French government that promotes France's economic attractiveness internationally.

For further information, please visit:
www.choosefrance.fr #ChooseFrance @ChooseFrance

The French Tech Mission is a team of civil servants responsible for helping the ecosystem of French start-ups form and flourish, in France and abroad.

As part of the Directorate-General for Enterprise within the Ministry of Economy, Finance and Industrial and Digital Sovereignty, the Mission coordinates and oversees the French Tech ecosystem with its network of 16 Capitals and 99 Communities, in France and abroad. It also supports start-ups by making it easier for them to interact with the administration via a network of more than 60 French Tech contacts.

The French Tech Mission supports the most mature start-ups through the French Tech Next40/120 program, as well as start-ups operating in sectors identified as strategic as part of the France 2030 plan with the French Tech 2030 program.

Finally, through the French Tech Tremplin program, the French Tech Mission enables people without an entrepreneurial background to create their own start-up anywhere in France.

CONFERENCES & SIDE EVENTS PROGRAM

JANUARY 9

03:00-04:00 PM	PITCH CONTEST SPORT TECH by Jade Fiducial
04:00-04:30 PM	Will audio 3D rock the listening experience and music industry ? With Music Unit
04:30-05:30 PM	PITCH CONTEST HEALTH TECH by Business France
06:00-10:00 PM	EVENING SIDE EVENT HEALTH TECH - French companies meet international keyaccounts

JANUARY 10

10:00-12:00 AM	COFFEE BREAK INPI - Hardware Award Ceremony
12:00-01:00 PM	PITCH CONTEST CONSUMER TECH by Business France
12:00-02:00 PM	CONNECTED WOMAN – With French Tech Angers, Business France, MEDEF & CTA
01:30-02:00 PM	KEYNOTE ROBOTICS / INDUSTRY 4.0 With AKIDAIA - Award Ceremony
02:00-02:30 PM	KEYNOTE IA - With IMKI - Award Ceremony
02:30-03:00 PM	The French Revolution : unveiling France's hidden Cybersecurity Innovations - With Snowpack, Leviia, Brain Security
03:00-04:00 PM	Process to disrupt logistics shunting operations by automation : 5G, IT management & V2X, mapping & safety - With EX9
04:30-05:30 PM	PITCH CONTEST MOBILITY in partnership with Bolloré
06:00-10:00 PM	EVENING SIDE EVENT MOBILITY - French companies meet international keyaccounts EVENING SIDE EVENT SPORT TECH – French and American ecosystem players meet

JANUARY 11

10:00-12:00 AM	COFFEE BREAK 3DS - Deep Tech Award Ceremony
12:00-01:00 PM	PITCH CONTEST ROBOTICS / INDUSTRY 4.0 by Business France
02:00-02:30 PM	Cloud & Data center environmental impact : challenges and solutions No more cards, no more terminal : an optimistic take on the global revolution in payment technology - With Delupay
03:00-04:00 PM	PITCH CONTEST GREEN TECH in partnership with Nouvelle-Aquitaine
04:30-05:30 PM	FINAL PITCH CONTEST Best French Startup nomination
06:00-10:00 PM	EVENING SIDE EVENT GREEN TECH - French companies meet international key accounts

PEOPLE POWERED INNOVATION

WE DELIVER AUTOMOTIVE LOGISTICS: ensuring the supply of inbound production materials, the outbound distribution of finished products or spare parts, while leveraging the lead time, cost, and sustainability, all tailor-made solutions to meet the major challenges of a globalized industry in a competitive and unstable environment. What makes Bolloré Logistics different is our entrepreneurial spirit and individual commitment that drive high added value and pragmatic solutions.

WHAT IS THE 3DEXPERIENCE® Lab ?

At the 3DEXPERIENCE Lab, the center of innovation of Dassault Systèmes, we look at the world with fresh eyes.

As an open innovation Lab, we operate worldwide on the cloud and we nurture collaborative & community projects to experience the unexpected.

We accelerate disruptive innovations that positively impact people & society, we leverage the collective intelligence and we reveal talents who want to change the world.

You have a disruptive idea to make the world a better place? You want to be a game-changer? Together, we can accelerate our transition path to a better world.

Join us at the CES 2024, discover our capabilities and meet our startups part of our accelerator program.

Designed to innovate.

YELLOW SCAN

Booth 61001-1

www.yellowscan.com

[yellowscan](#) [in](#) yellowscan

The YellowScan Navigator, an innovative bathymetric system, has the potential to revolutionize global coastal erosion and water management. What sets the YellowScan Navigator apart is its compact design, making it suitable for deployment under a drone – a departure from the large systems used on planes. This product is of French design and ingenuity, a testament to our commitment to innovation.

FRENCH PATENT
& TRADEMARK
OFFICE

OUR COMMITMENT TO INTERNATIONAL STARTUPS

The French Patent and Trademark Office (INPI) is represented in 9 strategic bases worldwide, covering around 100 countries. INPI's international activities aim at developing a strong IP ecosystem by providing stakeholders and partners with the necessary economic, political and technical information.

The IP Counsellors master the IP environment of their geographical areas and support companies in the expansion of their export businesses and in their fight against counterfeiting. They provide assistance to French companies in acquiring and enforcing their rights. They contribute to the promotion of French economic interests.

MAKING SELF TRAINING FUN, SAFE, AND EFFICIENT

1 / Each day, there are millions of fitness, sport and dance video tutorials, challenges that are published on online platforms by high end athletes of various sports to engage their fans.

2/ However as a fan, even if it's convenient to train in front of a video you never know if your workout is well done or not? If you make progress in time? Or can even get injured etc...

3 / Our platform PHYA gives real time posture feedback to the users while he works in front of any videos! shows progress in time, which movements are not well executed and how to correct them. Now anyone can train like a pro...with a pro!

NOTES

Handwriting practice lines consisting of 25 horizontal blue lines.

Business France is the national agency supporting the international development of the French economy, responsible for fostering export growth by French businesses, as well as promoting and facilitating international investment in France.

It promotes France's companies, business image and nationwide attractiveness as an investment location, and also runs the VIE international internship program.

Business France has near than 1 500 employees, both in France and in 55 countries throughout the world, who work with a network of partners.

Since January 2019, as part of the reform of the state support system for exports, Business France has given private partners responsibility for supporting French SMEs and mid-size companies in the following markets: Belgium, Hungary, Morocco, Norway, the Philippines and Singapore.
